

Montana Destination Imagination presents

ZOMBIE APOCALYPSE!

A ghoulishly creative problem solving experience for students 6th - 12th grades

Date: October 25, 2013

Time: 7PM - 10AM

Location: Darby School

Registration Deadline: October 15, 2013

This is an all night lock-in event. Register early - space is limited to 100 participants!

MADNESS! MAYHEM! DESTRUCTION! SURVIVAL! ESCAPE!

...AND A CATCHY TUNE!

YES, IT'S THAT CREEPY!

BUT YOUR TOWN NEEDS YOU!

Halloween is approaching; the ghosts and goblins are getting ready for their big night. But the undead can wait no longer! They want to take over the world and rule the Halloween festivities. Your quiet town has assembled in the square to use their creative problem solving skills to keep their town safe! What can you do to save the world?

You and your team are going to be asked to do a series of tasks that will help save your town. Each team will be scored on the mission and the winning team will be announced at the end of the evening.

Participants may register as individuals or as teams. Teams consist of 5 to 7 team members. Teams with less than 5 team members may have individuals assigned to their teams at the event. All individuals and teams must preregister for this event.

Teams will participate in one of two grade categories: 6-8th grades or 9-12th grades. Teams that have members in both categories will participate in the 9-12th grade level. Individuals will be assigned to teams at the event.

Every participant must be accompanied by an adult. An adult may be responsible for more than one participant, however, that person is responsible for making sure that those participants are supervised and safely returned to the care of their parents.

Note to Zombie Apocalypse participants: Teams are required to solve the challenges without the help of parents or supervising adults. All supervising adults will be warned that they may not "kill" the solution with their interference.

What is Montana Destination Imagination?

Destination Imagination prepares Montana's kids to be innovators of the future by combining the arts, sciences and technology with creativity, teamwork and problem solving techniques.

Students learn collaboration, communication, critical thinking and creativity skills in a fun and competitive atmosphere. Working with open ended educationally based challenges, teams work from imagination to innovation to implementation with the guidance of an adult team manager and Montana Destination Imagination. Any student in Montana may form a team and compete in the regular Destination Imagination Program.

The Zombie Apocalypse is a Halloween themed event presented in the creative competition style of the regular Destination Imagination program. Although we encourage students and parents to learn more about Destination Imagination, participants in the Zombie Apocalypse event are NOT obligated to participate in the regular Destination Imagination program.
